## SUMMARY

---

Web Developer with experience mentoring aspiring developers and supporting full-stack projects using .NET, React, and Azure. Proven ability to guide learners, foster collaboration, and simplify complex technical concepts. Passionate about expanding access to tech education and empowering the next generation of developers.

---

## TECHNICAL SKILLS

---

**Languages** - HTML, CSS, JavaScript, C#, SQLite, SQL, TypeScript

**Frameworks, Libraries, and Tools** - React, React Native, Next.js, Angular, Tailwind CSS, Bootstrap, Flowbite, Azure DevOps, Jira, Azure Database Studios, Visual Studio, VSC, RESTful APIs, .NET 7, .NET 8, GitHub, Version Control, Figma Entity Framework Core.

---

## PROFESSIONAL EXPERIENCE

---

### Intern

#### CodeStack

*June 2023 - September 2023*

- *CAPTAIN* - Developed full-stack components for the site, pulling information from the Database and setting up the backend for specific endpoints. Worked with Azure Database Studios for managing the database and Visual Studio with C# as the backend technology.
- *IHubSJ.org* - Designed and implemented a user-friendly component that mapped through backend data and allowed users to input information about their Business Metrics. Utilized Azure DevOps for efficient ticketing and coordination during development.

### Junior Web Developer

#### CodeStack Academy

*August 2023 - Present*

- Actively engaged in outreach efforts to promote the CodeStack Academy program, participating in events, workshops, and informational sessions to attract prospective students.
- Developed engaging lesson plans and utilized effective teaching methodologies to cater to diverse learning styles within the class.

### Coding Advocate | Developer

#### CodeStack

*November 2025 - Present*

- *Seis* - one of the largest special education systems used across California, working with a C# Web API and developing new form iterations using AngularJS.
  - Helped plan and execute the H2O Hackathon, one of the largest hackathons in San Joaquin County, and narrated the official prompt in collaboration with SJCOE.
- 

## FREELANCE PROJECTS

---

### Trades Woman Site

- Helped architect the backend using .NET 7/8, creating a scalable RESTful API with role-based access control, JWT authentication, and recruiter/admin functionality.
